FOREWORD

This amendment has been prepared by IEC technical committee 61: Safety of household and similar electrical appliances.

The text of this amendment is based on the following documents:

FDIS	Report on voting
61/1876/FDIS	61/1895/RVD

Full information on the voting for the approval of this amendment can be found in the report on voting indicated in the above table.

A bilingual version of this amendment may be issued at a later date.

22 Construction

Add the following subclause:

22.102 Interlock switches which prevent access to **live parts** during **user maintenance** shall be connected in the input circuit and located to prevent unintentional operation.

Compliance is checked by inspection and by applying the test finger of figure 1.

24 Components

24.101 *Replace the text by:*

Interlock switches which prevent access to **live parts** during **user maintenance** shall

- disconnect all poles unless the secondary circuit is supplied through an isolating transformer;
- have a contact separation which provides full disconnection in accordance with IEC 61058-1.

Compliance is checked by inspection and by measurement.
